

ABRAHAM MOISES HUACCHILLO CASTILLO

I am a graduate in Business Administration from the University of Piura with experience in the service industry. I consider myself organized, disciplined, adaptable, and a team player. Currently, I am focused on honing my web development skills through personal and group projects. I have completed practical courses in Docker, GIT and GITHUB, HTML, CSS, React JS, and Go Backend Development, and I am excited to apply these skills in a work environment and continue learning and growing in the field of web development.
